# HOW RHINO WATERPROOFING SOLUTIONS CAN PROTECT YOUR INVESTMENT

## 1 INTERIOR WATERPROOFING

With our state-of-the-art waterproofing system we are able to relieve the basement floors and walls of the hydrostatic pressure buildup around the home. We are able to collect the buildup in custom piping and pump the water away from the house keeping your basement permanently dry.

## 2 EXTERIOR WATERPROOFING

We will install our cutting edge drainage system and detect and fix any issues in your basement walls and foundation, protecting your basement from water damage and improving the condition of your home's foundation.

## 3 MOLD REMEDIATION

Our 6 step process — Inspection, Containment, Filtration, Removal, Cleaning, Restoration — makes it easy to detect and remove mold while also improving the air quality in your home.
